

Mechanical Engineering Department

Department- specific Guidelines and Clarifications to the College of Engineering and Science Tenure and Promotion Guidelines

Teaching

The required indicators for effective and innovative teaching are given in the college guidelines. Additional specific guidelines may include but are not limited to participation in program assessment process, continuous quality improvement process and teaching with course learning outcomes aligned with ABET accreditation criteria, development of new courses, course development grants, and solicited letters of evaluation from students or research advisees

Given that the Department's programs involve extensive student laboratory experiences, the Department recognizes that preparation, maintenance, and updating of the laboratory equipment and curricula can require extensive effort on the part of the faculty member.
