

First-generation, economically disadvantaged and/or students with disabilities will soon receive even greater support at University of Detroit Mercy through a new five-year \$1.1 million

## SAMHSA Funds Health Professions Training in Substance Abuse Screening and Intervention

The University of Detroit Mercy prepares counselors, dentists, nurses, physician's assistants, and psychologists to effectively screen, intervene, and coordinate treatment of substance abuse disorders. The project is based on the premise that in addition to behavioral health professionals, dental and primary health professionals are in key positions to identify problematic substance use among patients and coordinate a referral for treatment. Funded by a three-year, \$779,681 grant from the Substance Abuse and Mental Health Services Administration (SAMHSA), the inter-professionally-focused training project will train 1,074 primary and behavioral health professionals in the process of Screening,

Disadvantaged students in the Robotics and Mecha-

## NIH Funds Study of Primary Care Utilization among Patients with Serious Mental Illness

What factors prevent people with serious mental illness from accessing primary care services? Through a \$417,827 research grant from the National Institutes of Health, a team of researchers led by Assistant Professor Kristen Abraham will

## Please Remember to Certify Your Effort!

If you have time and effort charged to a sponsored program, please help us stay in compliance with federal regulations by certifying your effort! We accept paper reports as well as electronic certification in TitanConnect e-reporting service. Effort reports are due on January 31 (for fall term) , May 31 (for winter term) and September 30 (for summer term).

**VIDEO ABOUT TITANCONNECT CERTIFICATION**  
To assist you in better understanding the process, th
